Technical Skills

- **Languages:** Java (OOPs), JavaScript (ES6+), Python (NumPy, Pandas), C++, SQL, HTML/CSS
- **Frameworks & Libraries:** React.js, Next.js, Node.js, Express.js, FastAPI, Tailwind CSS, PyTorch
- **Infrastructure & Tools:** MongoDB, PostgreSQL, MySQL, Git, Docker, Postman, Vercel, Hygraph CMS
- **Core CS:** Data Structures & Algorithms (350+ Solved), Operating Systems, DBMS, Computer Networks

Education

Jamia Millia Islamia

Delhi, India

B.Tech, Computer Science Engineering (Specialization in Data Science)

Aug 2024 – July 2028

Cumulative GPA:

9.07 / 10.0

Experience

Enactus JMI

Delhi, India

Tech Team Lead (Web Development)

July 2025 – Present

- **Orchestrated** the development of the official organization platform using **Next.js** and **Hygraph CMS**, streamlining content updates for non-technical stakeholders.
- **Architected** optimized RESTful API layers to facilitate seamless data synchronization, resulting in a 30% reduction in front-end data fetching latency.
- **Championed** Agile methodologies within the tech team to deliver high-performance, mobile-responsive features for organizational growth.

Deloitte (Forage)

Remote

Data Analytics Simulation

July 2025

- **Synthesized** complex business datasets using **Python** to extract high-value consumer behavioral insights and market trends.
- **Automated** end-to-end data pipeline cleaning using Pandas, reducing manual processing overhead by 40%.
- **Visualized** strategic findings via Matplotlib and Seaborn, translating raw data into actionable executive-level reports.

Key Projects

NeuralSketch — Full-Stack ML Experience | *PyTorch, FastAPI, React*

[Link](#)

- **Engineered** a real-time drawing classifier utilizing a custom **CNN** trained on the "Quick, Draw!" dataset, achieving an 80% inference accuracy across 50 categories.
- **Deployed** a low-latency backend with **FastAPI**, optimizing image payload processing to serve predictions in under 100ms.
- **Applied** advanced deep learning optimization techniques, including Early Stopping and Learning Rate Scheduling, to ensure robust model generalization.

Enactus JMI Official Website

[Link](#)

- Developed a responsive website using Next.js to manage organizational content.
- Integrated **Hygraph CMS** enabling non-technical members to update content dynamically.

Achievements & Leadership

- **Student Placement Coordinator:** Appointed to represent the CSE department, managing corporate relations and end-to-end placement logistics.
- **Competitive Programming:** Finalist, CodeSlayer Hackathon 2025 (Top 2% of 2,500+ teams); LeetCode rating 1650+; solved 400+ algorithmic problems
- **Certifications:** Frontend Development (Simplilearn), Postman API Fundamentals, Deloitte Data Analytics.
