Delhi, India | +91-8299301609 | hamzamohd60329@gmail.com

LinkedIn | GitHub | LeetCode | Portfolio

TECHNICAL SKILLS

Machine Learning & Data Science: PyTorch, TensorFlow, Pandas, Scikit-Learn, Computer Vision, CNNs

Web Development: React.js, Next.js, Node.js, Express.js, Streamlit, Tailwind CSS

Languages: Python, Java (OOP), JavaScript (ES6+), TypeScript, C/C++, SQL

Cloud, Databases & DevOps: AWS, Docker, Git, MongoDB, PostgreSQL, Vercel, Hygraph CMS

Core CS: Data Structures & Algorithms, Object-Oriented Programming, DBMS, OS, Computer Networks

EDUCATION

Jamia Millia Islamia

Delhi, India

B.Tech, Computer Science Engineering (Specialization in Data Science); CGPA: 9.09 / 10.0 Aug 2024 – July 2028

EXPERIENCE

Enactus JMI

Delhi, India

Tech Team Lead (Web Development)

July 2025 – Present

- **Collaborated** with non-technical stakeholders to determine user requirements, translating them into technical specifications for the official organization platform using Next.js and Hygraph CMS.
- **Championed** Agile methodologies within the tech team to engineer high-performance, mobile-responsive features, incorporating feedback to continuously improve technical solutions.

Deloitte (Forage)

Remote

Data Analytics Simulation

July 2025

- **Applied** software engineering principles to develop Python-based scripts that process complex datasets, optimizing data extraction and transformation.
- **Automated** end-to-end data pipeline cleaning using Pandas, reducing manual processing overhead by 40%.
- **Improved** system efficiency and data observability by developing modular, reusable visualization pipelines using Matplotlib and Seaborn.

PROJECTS

SnapAttend - AI Attendance System | *Python, Streamlit, Supabase*

[Link](#)

- **Built** an AI-powered attendance management system leveraging **facial recognition** (face_recognition, dlib) to automate student verification, eliminating manual roll-call entirely.
- **Integrated** a **multi-modal verification** pipeline combining facial recognition and voice analysis (librosa, resemblyzer) with QR code-based attendance marking for fallback support.
- **Architected** a full-stack web application with **Streamlit** featuring role-based dashboards for teachers and students, backed by **Supabase** cloud storage and bcrypt-secured authentication.

NeuralSketch - Full-Stack ML | *PyTorch, FastAPI, React*

[Link](#)

- **Engineered** a real-time drawing classifier utilizing a custom **CNN** trained on the "Quick, Draw!" dataset, achieving an 80% inference accuracy across 50 categories.
- **Deployed** a low-latency backend with **FastAPI**, optimizing image payload processing to serve predictions in under 100ms.
- **Applied** advanced deep learning optimization techniques, including Early Stopping and Learning Rate Scheduling, to ensure robust model generalization.

Enactus JMI Official Website | *Next.js, Hygraph CMS*

[Link](#)

- Developed a responsive website using Next.js to manage organizational content.
- Integrated **Hygraph CMS** enabling non-technical members to update content dynamically.

ACHIEVEMENTS & LEADERSHIP

- **Student Placement Coordinator:** Appointed to represent the CSE department, managing corporate relations and end-to-end placement logistics.
- **Competitive Programming:** Finalist, CodeSlayer Hackathon 2025 (Top 2% of 2,500+ teams); LeetCode rating 1800+; solved 600+ algorithmic problems.
- **Certifications:** Machine Learning (Coursera), Deep Learning (IBM), Deloitte Data Analytics.
